

SHRAVAN

Lawande

DATA SCIENCE STUDENT

ABOUT ME

I'm a first-year Data Science student with hands-on skills in Python, NumPy, Pandas, SQL, Excel, and R Programming. Learning and growing every single day. Over the next 3 years, I plan to build real-world and AI-based projects. Just getting started — the best is yet to come.

SKILLS:

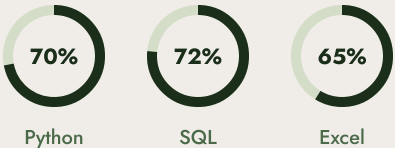

Python	70%
NumPy	50%
Pandas	45%
SQL	72%
Excel	65%
HTML	50%

EDUCATION:

BSc Data Science

New Arts Commerce & Science College
Ahilyanagar, Maharashtra
2026 — Present

PROFICIENCY:

PROFESSIONAL EXPERIENCE:

Laboratory Assistant

CASAS Department | 2026 — Present

- Assisted in laboratory activities supporting data collection, analysis and research operations within the CASAS department.
- Collaborated with faculty members and peers on data-driven experiments and academic research tasks.
- Maintained detailed lab records and contributed to documentation of experimental outcomes and findings.

ACADEMIC PROJECTS:

Data Science Student

New Arts Commerce & Science College | 2026 — Present

- Currently building strong foundations in Python, NumPy, Pandas, SQL, Excel, and R Programming through coursework and self-learning.
- Planning to develop real-world and AI-based projects over the next 3 years to build a strong portfolio.
- Actively engaging in self-study, online courses, and collaborative learning to accelerate skill development.
